

KRACKED DEVS

Join Malaysia's Premier Developer Community

Welcome to Your Coding Home

KrackedDevs launches December 2025. Learn the basics, build your first portfolio piece, join a supportive community—then grow through real experience and peer support.

What We're Building

Imagine a platform where you:

- 🎮 **Start small, grow forever** — Begin with basics at Level 1, keep learning and earning for life
- 🏆 **Win through competition** — Regular challenges with opportunities to earn and grow
- 💼 **Land real jobs** — Build a portfolio that attracts companies
- 🚀 **Learn by doing** — Contribute to real projects, get feedback from experienced members
- 👥 **Lean on community** — Get stuck? Ask. Stuck members? Help. Everyone grows together
- 📈 **Earn as you improve** — Opportunities multiply with your skills and commitment

All completely FREE to join.

How It Works

Phase 1: The Basics (Levels 1-5)

4-8 weeks to learn the fundamentals

You'll learn what you need to start:

- ✓ Set up your GitHub profile
- ✓ Learn coding fundamentals
- ✓ Build your first real project
- ✓ Add it to your portfolio
- ✓ Meet the community

By Level 5, you know enough to start. The real learning begins here.

Phase 2: The Real Game (Levels 6+)

Continuous growth through community and experience

-  **Compete and keep learning** — Challenges push you forward
-  **Get hired as you improve** — Companies see your growth
-  **Build real projects** — Learn by doing with peer support
-  **Earn as you progress** — Opportunities match your growing skills
-  **Become a mentor** — Help others, cement your knowledge

The more you commit, the faster you grow.

The Learning Model

It's Not a Bootcamp

We're not hand-holding you through everything. This is real.

- **L1-5 teaches basics:** Coding fundamentals, your first project, portfolio setup
- **Everything after:** You learn through experience, community help, and your own effort
- **Community is your teacher:** Stuck on something? Ask experienced members. They ask when stuck too

Success Requires Commitment

You need to:

- Show up regularly
- Be willing to struggle
- Ask questions when stuck
- Help others when you know the answer
- Learn from failure
- Push yourself forward

In return:

- You'll actually learn real development
 - You'll build actual portfolio pieces
 - You'll earn money
 - You'll have a community supporting you
 - You'll grow into a real developer
-

Three Ways to Earn (As You Grow)

1. Win Competitions

Regular challenges throughout the platform. As you improve, harder competitions open up. Top performers earn rewards.

When: Start exploring at Level 2, but real opportunities emerge as you get better

2. Land Jobs

Build your portfolio on KrackedDevs. Companies see your work. As you level up and improve, better opportunities appear.

When: Starts around Level 5+, grows with your skills

3. Get Passive Income from Projects

Contribute to upcoming projects. When they launch and generate revenue, you earn a percentage.

Get Started Today

Join in 30 Seconds

1. Go to [KrackedDevs.com](https://krackeddevs.com)
2. Click “**Join with GitHub**”
3. Create your profile
4. Start Level 1

That's it. No credit card. No fees. Completely free.

Your First Week

Day 1: Join and complete Level 1 setup

Day 2: Start learning basics, first coding challenges

Day 3: Work on your first small project

Day 4: Ask community for help if you need it

Day 5: Complete Level 1, join Discord

Day 6: Work on Level 2 content

Day 7: Help someone on the forum, get feedback

Total: ~5-10 hours of your time

What You Get

The Platform

- **Learning Path:** L1-5 teaches basics + first project
- **Real Experience:** Compete, build projects, earn
- **Job Board:** Real opportunities from companies
- **Project Gallery:** Real projects seeking contributors
- **Your Portfolio:** All your work in one place

The Community

- **Peer Support:** Ask questions, get answers from real developers
 - **Code Reviews:** Experienced members review your code
 - **Mentorship:** Learn from people ahead of you
 - **Shared Knowledge:** Everyone helps everyone grow
 - **No judgment:** You're learning, mistakes are welcome here
-

Who Should Join?

Perfect For You If:

- You're willing to put in effort
- You can handle learning on your own timeline
- You value real experience over hand-holding
- You're comfortable asking for help
- You're ready to help others too
- You believe in learning by doing

Maybe Not For You If:

- You want a guided bootcamp experience
 - You expect someone to teach you everything
 - You give up when things get hard
 - You're not willing to commit time
 - You want guaranteed employment
-

Why KrackedDevs?

vs. Bootcamps

None

Bootcamp: Expensive, hand-held, ends after 3 months, artificial

KrackedDevs: Free, community-driven, real projects, real earning

vs. Job Boards

None

Job boards: Apply without experience, get rejected

KrackedDevs: Build portfolio first, companies see your growth

vs. Learning Alone

None

Alone: Stuck, no feedback, lonely, unmotivated. KrackedDevs:
Stuck? Ask. Share? Help others. Motivated? Community

Real Talk

You will struggle here. That's the point.

Real developers solve problems they don't fully understand. That's what real work is. Here, you'll do that, but you won't be alone—the community has your back.

The faster you commit, the faster you learn. Real experience teaches faster than any course.

FAQ

Q: Really free?

A: Yes. 100% free for developers. We make money from companies, not you.

Q: Do I need experience?

A: Nope. L1-5 covers basics. After that, learning is on you (with community help).

Q: Will you teach me everything?

A: We teach basics and fundamentals. Everything else you learn through experience, community, and personal effort.

Q: What if I get stuck?

A: Ask the community. Real developers answer. You'll do the same for others.

Q: How fast can I learn?

A: Depends on your commitment. More time = faster learning. Real projects = faster progress.

Q: Will I get a job?

A: If you build a solid portfolio and keep improving, yes. Companies want to see growth and real work.

Q: Is it easy? A: No. It's real. Real work is harder than tutorials, but it matters more.

Q: Part-time okay?

A: Yes. But understand: part-time takes longer. That's okay.

The Big Picture

You don't get a certificate. You get a career.

Stop paying for bootcamps that don't guarantee jobs. Stop learning from tutorials nobody cares about.

Here, you:

- Learn real skills
- Build real projects
- Earn real money
- Get real jobs
- Join a real community
- Grow for life

No shortcuts. Just honest, real development.

Ready?

[JOIN NOW - IT'S FREE]

No credit card. No commitment. Just bring your willingness to learn.

Warning: This won't be easy. It will be worth it.

One More Thing

We're launching December 2025.

This is the beginning. But it won't feel like a beginning—it'll feel like jumping into the real thing.

That's by design.

Welcome to KrackedDevs. Welcome to real development.

KrackedDevs: Where Malaysian Developers Learn, Build, Earn, and Thrive Through Real Experience

The game starts December 2025. Bring your commitment.

Version 1.0 - Learning Model Updated

December 2025 - Community-Driven Learning
